

Federal Advocacy Report #9

House Votes Today on Economic Stimulus Package - Urge Leaders to Include Funding for the Arts

The House votes today on an economic stimulus plan that includes \$50 million in supplemental grants funding for the National Endowment for the Arts, as well as a number of other provisions that can benefit the arts.

The Senate starts their debate on Friday - currently their version does not include an arts jobs funding provision.

Please take two minutes to use Americans for the Arts' easy [Capwiz](#) system to contact your representatives and ask them to support the arts in this legislation.

As always thank you for your advocacy efforts. Your voice *does* make a difference.
