

YOU Can Help Keep Arts & Culture in State Budget!

Margot asked to send this along and make your voice heard!

Please ACT NOW -- YOU Can Help Keep Arts & Culture in State Budget.

On Saturday, April 18, we sent you an ALERT to request you take IMMEDIATE ACTION and communicate to members of the budget conference committee members who will work out the differences between the House and Senate budgets regarding arts, cultural, humanities, and historical grant-line-item funding in the FY 2009-2010 state budget.

Speaker Larry Cretul announced late yesterday afternoon the budget conference meetings will not begin first thing this morning. This gives you more time to act on Saturday's Alert THIS MORNING. Please do not put this action request off. These budget conference members need to hear from you and others now.

Your immediate action is greatly appreciated. [Click here](#) to review the ACTION ALERT we sent to you on Saturday. It outlines simple and quick steps you can take now, along with a complete list of members of the Transportation and Economic Development Appropriations Budget Conference.

If the link above does not open, here is the complete address for the link to the April 18 Alert.
